Guarding Against Deep Insert Skimmers

The ASD-SENTINEL is the latest security device created by Sterling Bank Services for the protection of ATMs.

Our specially designed insert provides immediate physical protection against the growing menace of razor thin skimmers. The ASD-SENTINEL, a Deep Insert Anti-Skimming Solution, is installed within the card reader to provide a continuous and cost-effective solution.

Able to be quickly installed in the field, the ASD-SENTINEL requires no changes to your ATM's hardware or integration into the software. The impact is immediate and the protection against razor skimmers being illegally installed on your ATM is assured.

## ASD-SENTINEL Simple, Silent Protection

The Card Reader

### Installing the ASD-SENTINEL

The **ASD-SENTINEL** is a quick installation and one that can be carried out in the field by an experienced Sterling Field Technician. With a typical installation taking less than an hour, there is minimal disruption to your branch or staff because of the ATM being out of service.

If you would like to know more about how Sterling Bank Services can install the ASD-SENTINEL on your estate, please contact your Account Manager or our Corporate Headquarters at (406) 251-5041.

### About the ASD-SENTINEL

Our Research & Development team, the same team who created the hugely successful ASD-8 Anti-Skimming Device, developed the ASD-SENTINEL in response to the actual threat highlighted by our customers.

This product is copyright protected and the property of The Cennox Group, our partner company in the UK, and the patents have been registered and are pending.
