

Looking for refresh ideas? *Features walls* create strong visual impact and added functionality.

When businesses look to make changes to their facilities, a quick refresh project can often deliver the biggest impact for a fraction of the cost of a major fit-out. Cennox undertakes light-touch projects that rejuvenates our client's spaces. Building a feature wall is one example, like behind a counter, near an entrance or centre stage flanked with lighting, planting even water.

Our teams can design and build custom feature walls that will become the center piece of your store or branch, drawing your customer's eye and elevating your brand.

Looking for inspiration? Speak to Cennox's Projects Division and start your journey today!

Built to attract the eye

Cennox manages the entire process of design, planning and the build of our client's feature walls and key customer touchpoints. Our in-house capabilities of nationwide construction, electrical, carpentry and design services is instrumental in supporting clients with a network of offices across a wide area and maintaining the continuity of roll-out.

Design service available

Cennox can help customers to visualize the end result by utilizing the latest 3D design software.

Why choose Cennox?

We are trusted by the world's leading businesses to support their infrastructure change programs. Our nationwide footprint and wide in-house capabilities offer customers an attractive one supplier solution to undertake all of their technology, security and facility installation and management needs.
