

Refresh your facilities with *new lighting* - energy efficient and high impact.

When businesses look to make changes to their facilities, a quick refresh project can often deliver the biggest impact for a fraction of the cost of a major fit-out. Cennox undertakes light-touch projects that rejuvenates our client's spaces. Cennox undertakes light-touch projects that rejuvenate spaces. Lighting is one such example.

Our teams can design and install new energy efficient LED lighting that will add to the ambiance of the space, improve brand impact, introduce directional focus across each room, and deliver a high impact improvement to each site.

Customized lighting solutions

Lighting doesn't need to be just white and bright - lighting can illuminate and add ambiance. Our teams can work with customers to design, install and support a wide range of energy efficient lighting systems to brighten up your facilities and build a contemporary environment your customers will fully appreciate.

Energy efficient products

Many business inherit legacy lighting systems when they move into premises that are not energy efficient or cost effective. Some of these site do not even provide adequate coverage of the spaces. Cennox can work with customers to choose the products that are better for the environment, better for the bank balance and importantly, add new life to the space.

Why choose Cennox?

We are trusted by the world's leading businesses to support their infrastructure change programs. Our nationwide footprint and wide in-house capabilities offer customers an attractive one supplier solution to undertake all of their technology, security and facility installation and management needs.
