

Note Counter

BC 242SD

Ultimate multi-currency value counter

The advanced BC 242SD is equipped with the latest generation of sensors so that all notes are correctly counted and checked. This banknote counter has been successfully tested by DNB and the color display provides the user with all information in any desired language. Various currencies can be mixed counted and an update is easily installed via USB. Reliable and fast counting of (un)sorted banknotes: the BC 242SD can help you with this!
