

The ultimate system for cash security

SQS SECURITY QUBE SYSTEM

Unmatched protection of
cash and valuables

Through innovative Intelligent Banknote Neutralization System (IBNS) technology, the Cennox SQS Security Qube System provides a fully end-to-end cash security solution at the ATM, across the pavement and during transit. This intelligent, multipurpose, and extremely lightweight system for security cases, makes it today's most advanced solution for bulk cash and ATM cassettes.

Benefits of the SQS Security Qube System
