

# Construction services

— WORKING IN PARTNERSHIP WITH OUR CUSTOMERS

Cennox is a nationwide full service general contractor, security integrator, rigging service provider, and ATM installation vendor. The Cennox team completes 3,000+ surveys and 5,000+ survey drawings per year.

We have established a network of business alliances and subcontractor relationships that enable us to fluctuate as project demands and economic conditions dictate. We manage all construction projects with a deft, experienced hand so that your team can focus on other business objectives.

Many other companies strive to deliver similar construction support services within our industries; we understand the competitive nature of this work. This is why we want our customers to know that they are our partners. We provide the highest level of quality construction services and fair and competitive prices to keep projects within budget while maintaining your brand image.

Our highly experienced team has decades of working in the construction industry to bring to your projects. Every obstacle imaginable with a construction project is handled professionally and efficiently with as much input from your team to our project managers as you wish.
