

# Install EV Chargers & Generate Revenue

Let us **plug** you into a beautiful **new future**

---

## Generate revenue in the parking lot you already paid for.

A solution that pays for itself, installing EV chargers is a smart choice. Whether you're looking to install several stations at a single premise or require a network installed at locations across the United States, Cennox can plug you into the right solution for your business.

## Why Cennox? Simple. One call is all it takes.

We provide your chargers, project management from start to finish, undertake any groundwork construction and electrical cabling, oversee all permits and surveys, and provide ongoing aftermarket care. We can even help you pay for it through our financing option.

One supplier, coast-to-coast, and all delivered in-house.

---

# Why Choose Cennox?
