Cennox is trusted to provide key security infrastructure and upgrade programs nationwide

Whether it's upgrades to existing systems or implementing entirely new designs, our extensive experience and expertise allow us to offer a comprehensive range of cutting-edge solutions tailor-made for the unique challenges in the correctional facility environment.

From CCTV and intelligent monitoring to the latest in access control systems, we provide security solutions to safeguard the wellbeing of inmates and staff.

Our solutions and services

Smart Surveillance System

With high-resolution cameras and sophisticated analytics, our CCTV systems provide comprehensive coverage of prison facilities, enabling detailed monitoring and detection.

Alarms and Access Control

Our alarm and access control systems can incorporate state-of-the-art, cloud-based monitoring, biometric identification, and visitor tracking systems, helping to regulate and manage movements within correctional facilities.

Pharmaceutical Safes

As a manufacturer, supplier, and service provider for a variety of safes, our pharmaceutical range ensures the secure and controlled storage of medications within your facility where threat of theft is an ongoing concern.

Service delivery

With locations across the United States, Cennox has a vast network of technicians readily available for quick deployment and efficient service. Whether it's installation, maintenance, or troubleshooting, our experts are capable of providing timely and reliable support wherever it's needed.
