

RETAIL SOLUTIONS

CUSTOMER FOCUSED SOLUTIONS

We provide a **different approach** to service planning, design, execution, and ongoing support.

Cennox has made a huge impact in retail, and continues to advance by providing innovative solutions. We are a market leading provider.

We work across many disciplines with the ultimate goal of improving the customer experience. Covering many areas of expertise, we can offer our customers a full-circle approach. Which is helping to respond and reshape to future trends.

To thrive, you have to offer something different. When retailers look towards the future for innovation and efficiencies, they turn to Cennox.

Retail Service

SUPPORTING CUSTOMERS ACROSS THE US

Sign Solutions

Cennox works with a wide variety of retail customers to manage their numerous signage projects. From the smallest of directional sign or Health & Safety notifications - to the prominent external and internal feature graphics and custom built retail stands.

Hardware Solutions

As a multi-vendor supplier of equipment, Cennox always look to supply our customers with the right hardware solution without being reliant on just one OEM's portfolio. Cennox has extensive experience in managing, supporting and delivering solutions.
