

Note Counters

— SC 1015

Reliable and innovative 2-pocket value counter with counterfeit detection

When you want to process larger amounts of banknotes and you don't want the banknote counter to stop at suspect notes, we recommend looking after a so called '2-pocket' value counter. The SC 1015 sorts out these notes in a separate pocket and continues counting without a restart. The, successfully tested, SC 1015 is a professional banknote counter with lots of possibilities for the demanding user!

CASH TESTER
