

Vault services

COMPREHENSIVE VAULT MANAGEMENT SOLUTIONS

We offer comprehensive vault solutions tailored to meet the needs of banks, financial institutions, and businesses requiring secure storage solutions to ensure the safeguarding of assets and operational efficiency.

Our services

Design and installation

Custom-built vaults to meet the highest security standards

Our experienced team of engineers guarantees high-quality design and installation of vaults that meet security standards. From initial consultation to final installation, we customize vaults to your specifications and regulatory requirements. In addition, Cennox can also provide automation in how bank customers access their own personal vaults, from providing access to generating the necessary government reporting.

Maintenance and upgrades

Routine inspections, repairs and upgrades

We offer extensive maintenance services, including routine inspections, repairs, and upgrades to ensure the operational efficiency, longevity, and reliability of the vault.

Relocation service of vault doors

Safe and secure relocation of vault doors

Our team meticulously plans and handles the relocation process of modular vault doors with ease and minimum disruption.

Security consulting

Advice on enhancing vault security

Our security specialists provide professional guidance through extensive assessments to recommend solutions that address vulnerabilities for enhanced protection against potential threats.

Emergency services

24/7 rapid response for lockouts and security issues

During emergencies, our 24/7 rapid response team swiftly addresses issues with your vaults, providing effective solutions from lockouts to security breaches to restore security.

Why Cennox?

+ Expertise:

Our team of professionals bring industry knowledge that provides competent strategies to address challenges of your business. Trust us to deliver expert guidance and enhance your operations.

+ Innovation:
