

# Quick Lock V Series of Electronic Locks

Increased  
Security and  
Productivity

The Quick Lock V series of electronic locks can take the security of your cash assets to another level - quickly, economically, confidently.

Two locks in the series feature time delay and all locks allow multiple user codes enabling you to limit access to those who need it, when they need it. These features provide a strong theft and armed robbery deterrent. The Quick Lock V series, coupled with outstanding customer service and live technical support 24/7/365, provide the capabilities and confidence you require to secure your assets. Cash losses and internal theft are an unfortunate reality, and why we continually strive to make retail and restaurant establishments more secure.

## TO MOVE AHEAD

To learn more about products that can take your operations to a new level, please contact a representative today at **(800) 342-3033 ext. 3001**. For more information about our full range of products, services and cash management solutions, please visit [www.cennox.com](http://www.cennox.com).
