

Summit Series - SM1

The compact and powerful cash management solution

- Simple, intuitive, touch screen interface
- Real-time web-based reporting
- Complete remote management
- Secure, reliable operating system
- Plug and play installation
- Solid state architecture
- State-of-the-art encryption for secure communications
- Single bill validator with 1200 or 2200 note capacity
- Bulk note feed option available
- Ability to clear bill jams without needing a service tech
- Compact/space-saving design
- External high speed thermal printer included

The Summit Series SM1 bill validating safes can take your cash management process to the next level. This robust, cloud-based solution not only brings the latest technology to day-to-day cash processing at your retail locations, but also leverages our Summit Control web portal to make daily cash deposit information available to your entire organization. With immediate view of cash activities across single or multiple locations, the ability to maximize cash flow and reduce cash shrinkage is greatly enhanced. The compact size allows the SM1 to be placed in locations where space is at a premium and still provide enough capacity to minimize the frequency of cash pickups.
