

D8 Series

Dispensing Drop Safes

Dispense currency and secure cash drops with confidence and visibility

- Rolled coin and bill dispensing via plastic tubes – buy/escrow change and keep safe door closed
- Drop drawer – direct deposit to secure inner compartment
- Time delay, time lock and Duress Alarm features – robbery and theft deterrents
- 24/7/365 live technical support service when needed

As one of the most dependable systems available, the D8 line of dispensing safes allow employees to make deposits and get change quickly and easily – while documenting every transaction. With built-in CPUs and control panels, these standalone or networkable units can also generate a wealth of sophisticated management reports and provide superior access control. With many anti-theft and time-saving features, it's never been easier to keep cash so completely safe, yet so completely accessible.
