

The DepositPlus

— THE LINCSAFE PORTFOLIO | US, UK & EUROPE

The **DepositPlus** is a high capacity back-office banknote cash recycler. This device is designed to support retail stores to automate their cash management process through key touchpoints in the day. The **DepositPlus** prepares the tills at the start of each shift, provides top-ups during the day, and enables the entire note contents of the tills to be deposited at the end of each working day. The solution counts, sorts, and stores the money, making the whole cash management process quick, efficient and secure.
