- Physical security solutions

Service Delivery

- Equipment procurement
- CCTV installation and monitoring
- Alarm installation and monitoring
- Enterprise video management
- Product satellite tracking monitoring
- Security compliance surveys

Facility Services

Products

- Electric vehicle charging devices (EV)

Service Delivery

- Store redesign
- Architectural CAD services
- Physical store fit-out services
- Construction and electrical services
- EV installation and maintenance
- Signage manufacturing
- Signage installation
- In store branding and display construction

Cennox capabilities

PROVIDING AN INTEGRATED INTELLIGENT **PAYMENTS** PORTFOLIO

From quick serve restaurants, to convenience stores, fuel stations and retail chains, the Cennox portfolio of front and back office payment solutions and cash management technologies is enabling businesses to onboard the latest intelligent efficient in store environments.

Back office cash recycling technologies

Deposit, count, secure, and manage till floats and daily takings through devices like the mighty **RecyclerMax**

Front office payment devices

Devices giving customers payment choice and improving how cash is deposited, counted, stored, protected. A better payment environment.

Payment reconciliation and intelligent CIT efficiencies

Same day provisional credit on deposited cash through our devices together with built in intelligent cloud monitored, real time cash visibility, enables a more cost efficient CIT experience.

Cennox capabilities

PROVIDING THE WIDEST **SERVICE** PORTFOLIO

Why Cennox?

WHY COMPANIES CHOOSE AND RELY ON CENNOX

We are a unique business, but that is why customers choose us. Businesses turn to Cennox because we can deliver their complex infrastructure change programs, be it technology, security or facility transformation. One supplier, one point of contact, one capable organisation able to onboard and deliver their services nationwide and across borders.

We work with the world's largest and leading businesses. We are trusted to manage their service critical infrastructure - a Managed Service Partner truly unique across the sectors we serve.

A service delivery business. A manufacturer of intelligent technologies. A multi-vendor, multi-domain, multi-sector business helping our clients to onboard automation and transform their businesses and the experiences of their customers.

We are Cennox, and we are ready to go!

Cennox manufacturing

DESIGNING OUR SOLUTIONS **WITH** OUR CUSTOMERS

Our portfolio of solutions are designed in collaboration with our customers. Many of our devices are the result of listening and responding to specific client requirements, taking those learnings into the build of the hardware and software elements. These windows into best practice is a key driver in how we operate as a business and why customers work with us.

The Lincsafe portfolio is headquartered and manufactured from our offices in The Netherlands.

Cennox manufacturing

DESIGNING OUR SOLUTIONS **WITH** OUR CUSTOMERS

We encourage our customers to visit and tour our facilities and spend time with our teams. These creative visits allow customers to not only see how we take an initial concept from first discussion to the production line - but also to see first hand our unique approach to customer onboarding, brand understanding and experience just how much they themselves become part of our continues evolution.

We are Cennox

The Retail Box

Intelligent cash management solutions

The RetailBox

THE LINCSAFE PORTFOLIO

The **RetailBox** allows for small sealed bags to be safely and easily deposited. A simple yet strong device with electronic code keypad. A multi-point lock with a rotary handle provides access, with all moving parts on the inside closed so that no seal bags can get between the closing mechanism. In addition, the door is equipped with magnetic contacts which check whether the door is really closed with acoustic signal should it detect the door not closing completely.

Safe standard	6 mm steel inside MDF with 2 mm steel
Banknote collection	Seal bag
Bag dimensions	12x20cm
Banknote capacity	400 bank notes
Safe lock	Electronic M-Lock
User identification	Key code with OTC
External size	490x300x459 (HxWxD in mm)
Weight	60kg

Note counters and counterfeit detectors

Intelligent cash management solutions

Note Counters

THE LINCSAFE PORTFOLIO

Note Counter **BC 242 SD**

Ultimate multi-currency value counter

The advanced BC 242 SD is equipped with the latest generation of sensors so that all notes are correctly counted and checked. This banknote counter has been successfully tested by DNB and the color display provides the user with all information in any desired language. Various currencies can be mixed counted and an update is easily installed via USB.

Reliable and fast counting of (un)sorted banknotes: the BC 242 SD can help you with this!

Note Counter **BC 282 SD**

2-pocket value counter with counterfeit detection

When you want to process larger amounts of banknotes and you don't want the banknote counter to stop at suspect notes, use our '2-pocket' value counter. The BC 282 SD sorts out these notes in a separate pocket and continues counting without a restart.

Also program the BC 282 SD to sort by denomination, orientation or other criteria. Reading serial numbers (and printing them) is one of the standard functions. Updating to the latest software can be done via the integrated micro SD card reader, the network connection or via the computer.

Counterfeit Detectors

THE LINCSAFE PORTFOLIO

Counterfeit detector CT 433 SD

Ultimate multi-currency value counter

With the CT 433 SD you are always up to date! A reliable counterfeit money detector with clear LCD display and of course successfully tested!

In addition to the optional battery (for mobile use), the CT 433 SD also has an extensive report function on the display and a micro SD card reader for easy updating! It couldn't be easier and a detector couldn't be more extensive.
