- B-rated construction
- Most models have auto door detent
- Most models contain spring loaded re-locker
- Locks options available on request
- 24/7/365 live technical support when needed
- Most models contain adjustable shelves

### Make quick, secure cash drops with ease.

Keep your cash or vital assets safe even while they are close-at-hand with a Drop Drawer Safe. The drop drawer design is the most "fish" resistant way of protecting deposits. In most cases, the deposit will be protected in an interior key locking compartment, allowing the rest of the interior to be separated until storage. Two door models are fit with two electronic locks, one for each compartment, and each lock is programmable with unique user codes limiting access to only those who are authorized. In addition, setting a time delay on an electronic lock extends your ability to deter armed robbery and burglary.
