

Retail solutions **designed with you,**
built, installed and supported by Cennox.

— THE LINCSAFE PORTFOLIO

Introduction

WHY COMPANIES CHOOSE CENNOX

Cennox delivers complex and critical infrastructure change programs for customers worldwide, be it technology deployment and servicing, to security integration and facility transformation projects. One supplier, one point of contact, one capable organisation able to work with customers to onboard and deliver their services nationwide and across borders.

A service delivery business. A manufacturer of intelligent technologies. A multi-vendor, multi-domain, multi-sector business helping our clients to transform their businesses and the experiences of their customers.

Cennox is also the home of the Lincsafe portfolio. A suite of intelligent retail smart safes, cash recyclers and self-serve payment terminals, each designed, manufactured, deployed and supported by our teams worldwide.

Cennox capabilities

— PROVIDING THE WIDEST **SERVICE** CAPABILITIES

Technology Services

Products

- Self-payment terminals
- Cash recycling technology
- Intelligent deposit safes
- Cash counters and cash testers
- Lockers, ATMs, vending and kiosks

Service Delivery

- Equipment procurement
- Software staging and integration
- Nationwide device installation
- Multi-vendor device maintenance
- Device clean and refresh services
- 1st and 2nd line help desk support
- Device compliance surveys
- Refurbished parts and repair
- Storage and brokerage

Security Services

Products

- Ink staining technology
- CIT cash cassette technology
- Locks and device anchors
- Product tracking devices
- Traditional safes
- ATM security solutions
- CCTV devices
- Alarms
- Access control systems
- Physical security solutions

Service Delivery

- Equipment procurement
- CCTV installation and monitoring
- Alarm installation and monitoring
- Enterprise video management
- Product satellite tracking monitoring
- Security compliance surveys

Facility Services

Products

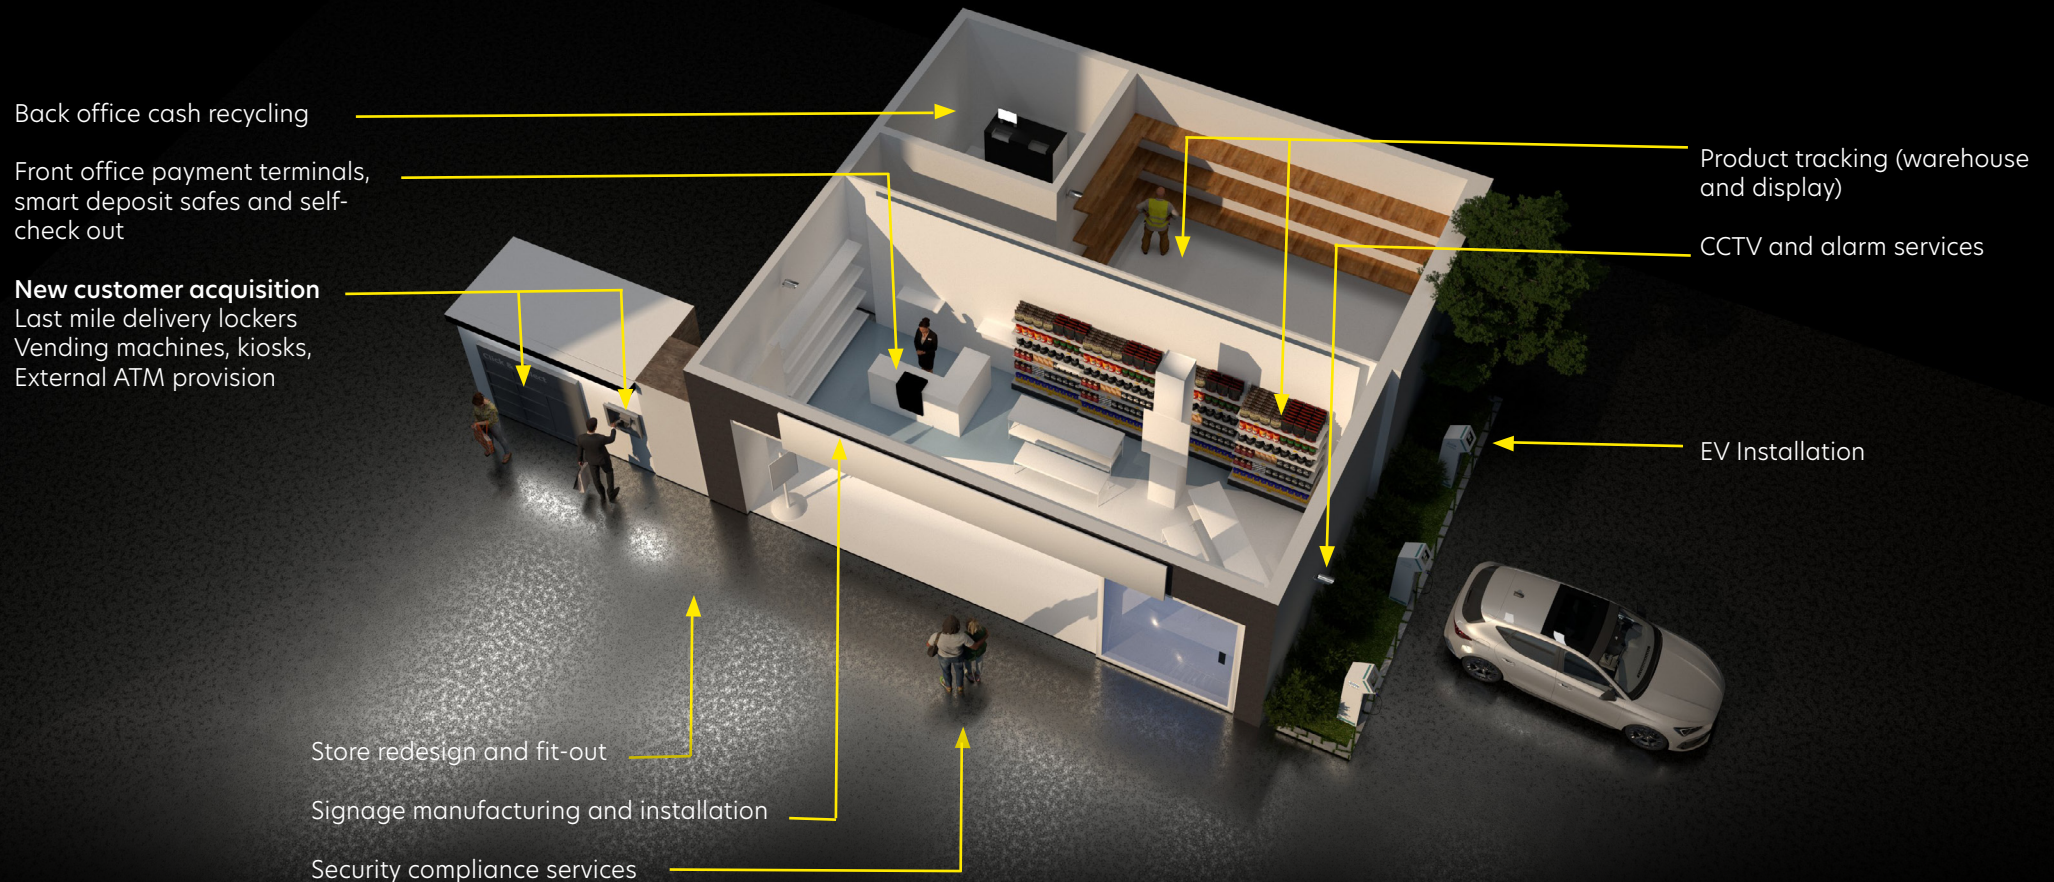

- Electric vehicle charging devices (EV)

Service Delivery

- Store redesign
- Architectural CAD services
- Physical store fit-out services
- Construction and electrical services
- EV installation and maintenance
- Signage manufacturing
- Signage installation
- In store branding and display construction

Cennox capabilities

PROVIDING THE WIDEST **SERVICE** PORTFOLIO

Cennox capabilities

PROVIDING AN INTEGRATED INTELLIGENT **PAYMENTS** PORTFOLIO

From quick serve restaurants, to convenience stores, fuel stations and retail chains, the Cennox portfolio of front and back office payment solutions and cash management technologies is enabling businesses to onboard the latest intelligent efficient in store environments.

Back office cash recycling technologies

Deposit, count, secure, and manage till floats and daily takings through devices like the mighty **RecyclerMax**

Front office payment devices

Devices giving customers payment choice and improving how cash is deposited, counted, stored, protected. A better payment environment.

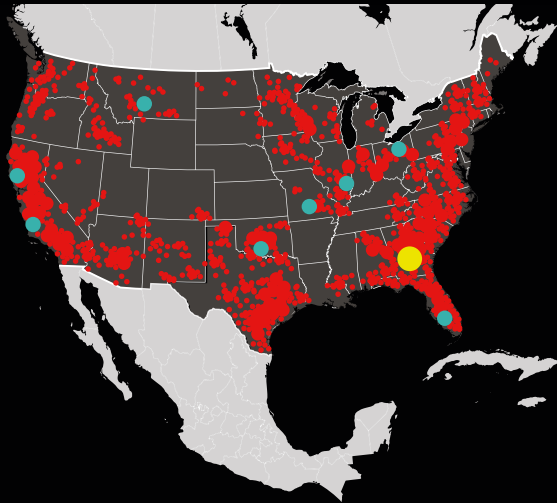

Payment reconciliation and intelligent CIT efficiencies

Same day provisional credit on deposited cash through our devices together with intelligent cloud transaction monitoring, real-time cash visibility and a more efficient CIT experience.

Where we operate

— GLOBALLY POSITIONED, **LOCALLY** DRIVEN

- Group headquarters
- Cennox offices
- Cennox field engineer coverage

US Activities

550,000+

Devices supported nationwide.

720,000+

Work orders/projects completed per year.

100,000+

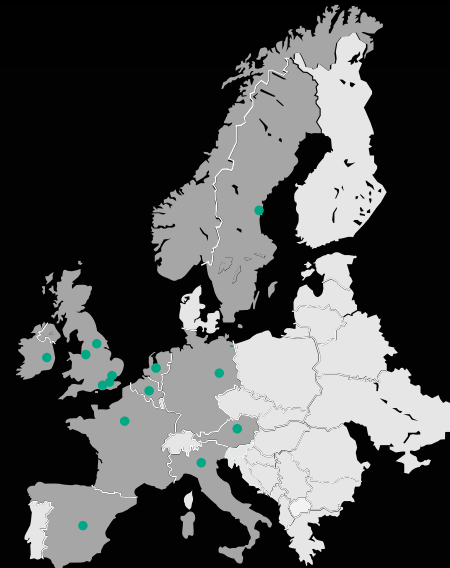

Help desk calls handled p/a.

3,000+

Supported customers in every US continental state.

250,000+

Warehousing space.

European Activities

300,000+

Help desk called handles in each year.

30,000+

Installations, roll-outs and changes.

40,000+

Devices supported.

170,000+

Security products deployed.

16,000+

Devices staged.

The sectors we serve

PROVIDING THE WIDEST **SERVICE** PORTFOLIO

Retail & Hospitality

Cennox work with a retailers, restaurants and venues to improve their businesses, grow revenues, and enhance their customers' experience.

Financial Businesses

Internationally recognised and trusted to provide innovative solutions that our banking customers rely on everyday. From single branch credit unions to tier one financial institutions.

Commercial Institutions

Relied upon by businesses to support their major change programs across all things facilities, security and technology.

Cennox manufacturing

DESIGNING OUR SOLUTIONS **WITH** OUR CUSTOMERS

Our portfolio of solutions are designed in collaboration with our customers. Many of our devices are the result of listening and responding to specific client requirements, taking those learnings into the build of the hardware and software elements. These windows into best practice is a key driver in how we operate as a business and why customers work with us.

The Lincsafe portfolio is headquartered and manufactured from our offices in The Netherlands.

Cennox manufacturing

DESIGNING OUR SOLUTIONS **WITH** OUR CUSTOMERS

We encourage our customers to visit and tour our facilities and spend time with our teams. These creative visits allow customers to see how we take an initial concept from those first discussions to the production line.

Note counters and counterfeit detectors

Intelligent cash management solutions

Note Counters

THE LINCSAFE PORTFOLIO

Note Counter **BC 242 SD**

Ultimate multi-currency value counter

The advanced BC 242 SD is equipped with the latest generation of sensors so that all notes are correctly counted and checked. This banknote counter has been successfully tested by DNB and the color display provides the user with all information in any desired language. Various currencies can be mixed counted and an update is easily installed via USB.

Reliable and fast counting of (un)sorted banknotes: the BC 242 SD can help you with this!

Note Counter **BC 282 SD**

2-pocket value counter with counterfeit detection

When you want to process larger amounts of banknotes and you don't want the banknote counter to stop at suspect notes, use our '2-pocket' value counter. The BC 282 SD sorts out these notes in a separate pocket and continues counting without a restart.

Also program the BC 282 SD to sort by denomination, orientation or other criteria. Reading serial numbers (and printing them) is one of the standard functions. Updating to the latest software can be done via the integrated micro SD card reader, the network connection or via the computer.

Counterfeit Detectors

THE LINCSAFE PORTFOLIO

Counterfeit detector **CT 433 SD**

Ultimate multi-currency value counter

With the CT 433 SD you are always up to date! A reliable counterfeit money detector with clear LCD display and of course successfully tested!

In addition to the optional battery (for mobile use), the CT 433 SD also has an extensive report function on the display and a micro SD card reader for easy updating! It couldn't be easier and a detector couldn't be more extensive.

Counterfeit detector **CT 511 SD**

Quick and easy to update via SD card

The CT 511 was developed as a professional counterfeit detector for banks, currency exchanges, and hotels that handle multiple currencies. The device features a clear display and checks your banknotes in every direction within half a second, with 100% accuracy! You don't need a manual or training to use this counterfeit detector: just turn it on and you can start checking right away!

Naturally, this counterfeit detector is equipped with the latest software, so even the newest banknotes are checked quickly and reliably.
